Opportunities for companies

HORIZON 2020

The scope of the **e-KNOT project** is to **strengthen the interaction between Education-Research-Industry in Europe**, in order to consolidate a strong EGNSS *knowledge triangle*, a solid network for the creation of a critical mass involving the relevant actors in these areas

The project offers to **small and large companies** opportunities to create strong links with **research centers** and to work with **students** trained in GNSS

Choose your option!
